(5) Past Performance. This evaluation factor will comprise 5% of the total evaluation weight.

(i) Past Projects. The Offeror shall furnish a list showing the in,,service date, type of contract, performance record for each of the generator armature windings, cores and exciter reconditioning listed in (1) above, the address, and telephone number, the contract dollar value initial and final, for each project listed in (1) above. Provide a list of projects similar in scope and magnitude to the work required under this solicitation which the offeror has completed during the last 10 years. For each project, include:

- a. Name of the project;
- b. Description of the work;
- c. Contract number, date and type;
- d. Name and address of the acquiring Government agency or commercial customer;
- e. Initial contract amount and final contract amount;
- f. Any problems encountered in performance of the work and corrective action(s) taken; and
- g. Name(s) and telephone number(s) of references from the acquiring agency or customer who may be contacted for further information.

(ii) Reliability. The Offeror shall furnish a list of customer's with the following information on armature windings, core and exciters of a similar design including (i) those under warranty, (ii) those in which the warranty period has expired and (iii) those which have failed while under warranty.

(iii) Facilities. The Offeror shall provide information on all plant and test facilities (including Government facilities) proposed to perform and accomplish the work . The need for any special plants and/or facilities shall be fully substantiated. Information shall be furnished on any planned use of alternate plants/facilities. Reclamation may conduct a pre,,award inspection of the proposed manufacturing facilities.

(6) Transportation Plan. This evaluation factor will comprise 5% of the total evaluation weight.

The Offeror shall furnish a detailed plan for transporting the generator armature windings, core and reconditioned exciter to/from Davis Powerplant (if applicable). This plan shall demonstrate the Offeror's familiarity with the difficulties of transporting these items by rail, over highways with weight and traffic restrictions, transmission line clearances and narrow roads in the vicinity of Davis Powerplant.

(7) Installation and Removal Plan. This evaluation factor will comprise 5% of the total evaluation weight.

(i) The offeror shall identify the proposed field testing firm; describe the proposed installation plan for the generator armature windings, core and reconditioned exciter, describe onsite installation activities. The description shall include the proposed method for installing the generator armature windings, core and reconditioned exciter into a difficult location, and proposed outage requirements. Provide a statement of any problems or major difficulties anticipated in accomplishing the installation and proposed resolutions.

(ii) The offeror shall provide a plan for removal of the existing generator armature windings, core and exciter which demonstrates an acceptable method of handling and disposal of hazardous materials (if applicable). Provide a statement of any problems or major difficulties anticipated in performing or accomplishing the removal and proposed resolutions.

(8) Design Innovations/Design Methods. This evaluation factor will comprise 5% of the total evaluation weight.

The offeror shall provide a list of innovations and proposed design methods in the design of this specific type of generator armature winding, core and exciter reconditioning process which it proposes to furnish.

%

(9) Risk. **This evaluation factor will comprise 5% of the total evaluation weight.**

The Offeror's past performance/experience, proposed manufacturing facilities, proposed installation procedures, and stator core/winding design will be evaluated to determine the degree of risk to the Government in selecting their firm for an award. In evaluating "Risk," Reclamation will take into consideration elements such as, but not limited to: the estimated amount of Government oversight required to ensure adequate performance and the offeror's overall credibility when their proposal is viewed as a whole. Offerors demonstrating superior qualifications evidenced by successful on-time past performance and proven stator/winding design success will be rated more favorably than those lacking these attributes. NOTE: Negative inferences may be drawn by an Offeror's failure to provide candid and/or complete responses regarding past performance, terminations, claims, and late delivery/performance, etc.

(10) Price. This evaluation factor will comprise 25% of the total evaluation weight.

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(d) Foreign inspection service. The additional cost to the Government of foreign inspection service in the amount of \$15,000 will be added to the total price offered in the
